

THE SPIRIT OF IP

“**spi|rit** noun wit; soul; energy” –

Those who work with us experience **wit** as the fountain of our ideas, beyond established paths, **soul** as the shelter of our knowledge and the experience of a firm with a more than 60 years’ tradition, **energy** as the mainspring to expedite the matter of our clients.

The protection of intellectual property safeguards and promotes innovation and entrepreneurial achievement. For more than 60 years rospatt osten pross has been active exclusively in this specialized area of business law and is known for the high quality of its legal advice and its litigation skills. We secure our clients’ entrepreneurial base by defending and enforcing their protected rights and shielding them against the attacks of competitors.

In patent law the German courts – especially those in Düsseldorf and Mannheim – traditionally lead the pack in Europe, hearing several hundred infringement cases a year. Also in trademark law, design protection, copyright law and antitrust law their centralized jurisdiction ensures optimum litigation handling and decisions of the highest quality.

The clientele of rospatt osten pross is international. Our clients value our independence and our detailed knowledge of current legal developments both within Germany and abroad. They know that our daily business is dealing with scientific and technical matters, pursuing legally complex trademark strategies, and steeping ourselves in the unique aspects of a design.

Rankings

“This estimable boutique is a big noise in the patent litigation arena and has long played a leading role on many of the market’s ground-breaking suits. The crack trial unit takes a resolutely commercial approach, which resonates among progressive technology companies the world over. With bases in Dusseldorf and Mannheim – two of Europe’s top patent litigation hotspots – it has its finger on the pulse of developments in this area of practice.”

IAM Patent 1000 – 2013

“Sources confirm this firm’s market-leading patent litigation practice, highlighting the team’s technical skill and client-oriented approach.”

Chambers Europe – 2013

“long established IP boutique [...] with clients, which are ‘extremely pleased’ with the consistently high-quality legal advice and professionalism found at the firm.”

IAM magazine – 2011

“A Crème de la Crème among IP-firms”

Chambers Global – 2004 / 2005

“renowned IP boutique from Düsseldorf [...] Their second generation has taken over now so they are all young and very good people.”

MIP Handbook – 2010
